Dear Hiring Manager,

I am writing to express my commitment for the Internship Programme at Volvo Cars, as advertised. With a passion for coding and a drive to work on diverse projects, I am eager to contribute to Volvo's innovative environment and develop my skills further.

As a student of computer engineering entering my final year at University West, I have immersed myself in various programming languages, including Python, C++, and JavaScript, alongside frameworks such as Next.js and React.

Although I have yet to gain formal job experience, I have dedicated myself to personal projects at home, where I have tackled challenges independently and continuously expanded my skill set. These experiences have not only deepened my understanding of software development but also instilled in me a strong work ethic and a commitment to producing high-quality work.

The opportunity to intern at Volvo Cars excites me, as it aligns perfectly with my career aspirations. I am eager to leverage my technical skills and contribute to meaningful projects within Volvo's IT department. Moreover, I am keen to learn from experienced professionals and gain invaluable insights that will prepare me for a successful career in the technology industry.

Thank you for considering my application. I look forward to the opportunity to become part of the talented team at Volvo Cars and am very interested in discussing how my experience and expertise can benefit the company's success. I have attached my CV for your review.

Warm regards,

Abdullahi Asad
